

# And the rain

**1**

Foreign thoughts, foreign land  
You're not here to hold my hand ... again  
I know I had to do this  
And no one else must notice  
So I'm as cheerful as I can  
You'll be here, you'll be here  
One fine day, you'll be near ... again  
This trip won't last forever  
And then we'll be together  
As close as only lovers can

## **Chorus**

And the rain falls so fast  
Not a single drop will last  
They all go where I can't follow  
(They all go, they all go)  
And the water breaks the light  
It's a calm and peaceful sight  
But inside I'm dark and hollow  
(But inside I'm dark and hollow)

**2**

Oh I wish I could stay  
Yet I have to move away ... again  
My journey must continue  
There's harder things I've been through  
But then I was a different man  
There's no time to make new friends  
As I travel through the land ... again  
The only home that I knew  
Was when I lay beside you  
As close as only lovers can

## **Chorus**

And the rain falls so fast  
Not a single drop will last  
They all go where I can't follow  
(They all go, they all go)  
And the water breaks the light  
It's a calm and peaceful sight  
But inside I'm dark and hollow  
(But inside I'm dark and hollow ...)
